EOI Overview

Dear Concern,

I am writing on behalf of Dupno GPS Software, a market leader in GPS tracking software. Our cutting-edge technology has made us a top choice for many clients in India and abroad, and we are proud to have over 300 GPS fleet management operators using our platform worldwide.

Our GPS software comes equipped with advanced mapping and reporting features, ensuring that you always have access to real-time updates and valuable insights about your fleet. Our GPS-enabled vehicle tracking devices are designed to be installed on each vehicle, collecting and transmitting tracking data through a reliable cellular and satellite network. In addition to our robust software, we also offer source code and dedicated support services to ensure that our clients have the resources they need to maximize their investment in our product. We believe that our GPS tracking software is the perfect solution for businesses looking to streamline their operations and increase efficiency.

We would love the opportunity to discuss our product further with you and demonstrate how Speedotrack can benefit your business. Please do not hesitate to reach out if you have any questions or if you would like to schedule a demo.

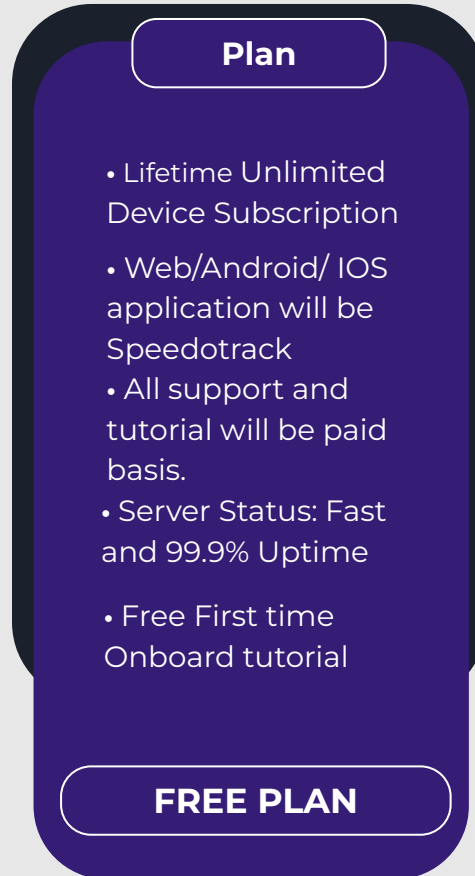

Thank you for considering Speedo Track as your GPS tracking software provider. We look forward to the opportunity to serve you.

Regards,
